RE: Richard DeBias Public Comment on December 16, 2021

To: Randolph County Commissioners

Prior to my accident in 2010 I never knew much about local or state politics but in the years following reached out to about every representative in the state and at the local level without a single ounce of help from any of them. As the years went by before and after my civil suit I learned more and more about the local politics of this county which was mainly bad. When first attending these Commissioners meetings the only individual that I barely knew was Mark Scott because we had spoken a few times beforehand. Not to forget I knew of Rob Elbon before he become Sheriff who where credit is due has been the most transparent out of everyone.

My main reason for attending these meetings was to just start a conversation about **Body Cams** with regards to the Randolph County Sheriff Department. Solely because Sgt. Talkington came to my house on mainly **hearsay** where he not only **threatened** and **harassed** my family but had enough

Randolph County Commissioners

December 16, 2021

Page 2 of 4

nerve to **degrade** me in front of my wife of almost **30 years** and **mother-in-law** then finally falsifying a criminal complaint mainly to impress certain individuals. Over the course of a year and several Freedom of Information requests later it seems as if important pieces of **material facts** have mysteriously disappeared. Lieutenant Talkington is a product of not only years of terrible supervision but very poor morals and ethics as well.

Personally I know better than anyone how the **injustice system** works in Randolph County where certain elected officials use their positions to settle personal grudges mainly coming out of the Prosecutors office, house of inequality and most definitely the Magistrate. With the help of Magistrate Dyer and Shepler Lt. Talkington was able to get away with denying me **Due Process**. Another thing that has been very obvious in these meetings is the amount of favoritism shown towards law enforcement mainly coming from Commissioner Kesling. You have made the statement in the past about not disrespecting people but that is all you had done to me the whole time. Just proving my point that there is more preaching and a whole lot less practicing going on in this county which is the worst one I have seen in the state. Not to worry I am thick skinned and will not melt like a snowflake

or cry to the Randolph County Sheriff Department which has been done in the past by a lot of **guilty cowards**. One thing about the elected officials in this county is the majority of them are not afraid of hiding their **favoritism, nepotism** and plain out **rigging the system** to benefit them. I have lived in several places not only in West Virginia but across the United States as well. This county by far has some of the most **devious, deceitful** and **backstabbing** people I have ever run across.

Lastly, an officer such as Lt. Talkington would be **irrelevant** in any other Sheriff Department. What went on at my residence on August 22, 2020 is his main **MO** and no telling how many other people he has done this to over the years. Previously I have told the Sheriff to please keep Lt. Talkington far away from my family because one of these days he is really going to hurt someone due to him being very unprofessional, poorly trained and above all else has a huge ego that hides behind a badge. Lt. Talkington ruined my record on purpose and so I hopefully plan on ruining his reputation simply by just telling the **truth** backed up by **three witnesses**. My offer presented to the Sheriff still stands pertaining to meeting anyplace at anytime where a **formal apology** to my family is in order accompanied by a retraction of **false charges** by Lt. Talkington. Until that happens I will continue to let everyone

know how incompetent he is. The whole time advocating for much needed **Body Cams** along with **Dash Cams** as well so what happened to my family will not go unseen again. By the way, a copy of my **Public Comment** has been left with the Commissioners Administrative Assistant.

Thank you,

Commissioners David Kesling, Chris See and Chris Siler  
Randolph County Courthouse Annex  
4 Randolph Avenue #102  
Elkins, WV 26241

Dear Commissioners,

On behalf of Mountain Arts District, I have requested to be on the agenda for Thursday's December 16, 2021 meeting to ask for support for this organization which is committed to enhancing the role of the arts as an economic driver for the north-central region.

Last year you gave us some funds for public art and administration of our Artist/Venue directory and arts calendar. With that funding we were able to extend the Youth Art Trail, formerly known as the Children's Art Trail, to Harman and Beverly Schools. Three pieces of children's art will be dedicated at Harman School in December, 2021 and the Beverly Art will be completed in early 2022. Attached are the pictures of the three pieces for Harman School. Our work has inspired the communities of Belington and Buckhannon which are planning their own projects. This small attempt to create a more artistic environment is becoming a regional Youth Art Trail. The GPS coordinates are on the MAD website.

MAD continues to build a marketing infrastructure of an online showcase for artists and venues as well as an arts event calendar. The website became fully operational in September of 2016. It is not enough to get artists and venues signed up on a website, but you have to bring tourists and residents to the website and to social media so that they can meet the artists, find out where to purchase their art, and participate in art events. Through the use of social media, rack cards and other marketing efforts, MAD plans to help artists grow their businesses while adding value to the effort of making Randolph County and the region an arts destination. The Facebook page has over 1,595 followers and has on average 2000 hits per week. The website gets about 1000 hits per month.

#### Randolph County Subscribers

In Randolph County, there are nearly 30 subscribers to the website, including individuals as well as co-ops, art-related businesses and performing venues that feature hundreds of artists. For

example, we have the Art Center, Artists at Work, the Weavers Guild, and (Augusta) whose subscriptions benefit large numbers of artists and local residents as well. We have exchanged links with Elkins Tourism and other CVBs, ArtSpring and the Mountain Music Trail which represents over 40 artists and venues. Growing the list of artists and venues takes a good deal of time and effort, making our mission more challenging as all the 'on-the-ground' work is done by volunteers.

Focusing on developing tourism and art based economic development, you could say the Mountain Arts District is functioning as a subset of a CVB.

#### Funding Request:

MAD is requesting a total of \$2,000 for two purposes: the Youth Art Trail and strengthening the arts economy by putting our marketing activities in professional hands.

#### Youth Art Trail

MAD is planning to increase children's public art in Randolph County, and promote the Youth Art Trail by designing and distributing print and digital engagement specifically for this purpose. The Art Trail will be an attraction for Randolph County, and add to the creative environment needed to be considered an arts destination. Grants from the Snowshoe Foundation have supported our Youth Art Trail in Randolph County.

#### Professional Digital Marketing Consultants Marketing Needs

In order to give better and consistent service to artist entrepreneurs, and promotion of art events in Randolph and the region, MAD hired LMC and Associates to take over the postings to the Facebook page and Ajuga, Inc to update and improve the website information. They are currently hired on a month- to- month basis as a pilot and already we have seen increases to our FB page and visits to our artist pages on our website.

Also, the monies received from the RCC allowed us to contract The Art Medium Company to produce the children's large artwork to be displayed in Randolph County. The financial support from the Randolph County Commission has also allowed us to support local businesses to support our mission and county projects.

I hope you have a chance to check out the site at [www.madwv.com](http://www.madwv.com).

Sincerely,  
Scottie Wiest  
President  
Mountain Arts District.
