He said they are going to have to sell it in order to pay the bills which are mostly medical bills. He said the claimant, Mr. Derek Armstrong, wants to buy it and Mr. Wallace suggested that he had some time to get an appraisal done and come forward and try to buy it and if he can't for whatever reason then Mr. Wallace says the property needs to be sold. He said all of the other issues are kinda in the back seat to that. He said if the current personal representative gets removed then whoever gets appointed would have the same problems. She said it is going to be on the ballot and the way it is worded it says it could do away with personal property tax on vehicles for everybody. She said everyone will vote for that but it is up to the State if they actually do it once it passes. She said this could be devastating to a lot of counties. She said there could be County consolidations done to combine Counties together if that much money is lost in tax revenue. She said she just wanted the Commission to be aware of it.

IRS issues standard mileage rates for 2022

IR-2021-251, December 17, 2021

WASHINGTON — The Internal Revenue Service today issued the 2022 optional standard mileage rates used to calculate the deductible costs of operating an automobile for business, charitable, medical or moving purposes.

Beginning on January 1, 2022, the standard mileage rates for the use of a car (also vans, pickups or panel trucks) will be:

- 58.5 cents per mile driven for business use, up 2.5 cents from the rate for 2021,
- 18 cents per mile driven for medical, or moving purposes for qualified active-duty members of the Armed Forces, up 2 cents from the rate for 2021 and
- 14 cents per mile driven in service of charitable organizations; the rate is set by statute and remains unchanged from 2021.

The standard mileage rate for business use is based on an annual study of the fixed and variable costs of operating an automobile. The rate for medical and moving purposes is based on the variable costs.

It is important to note that under the Tax Cuts and Jobs Act, taxpayers cannot claim a miscellaneous itemized deduction for unreimbursed employee travel expenses. Taxpayers also cannot claim a deduction for moving expenses, unless they are members of the Armed Forces on active duty moving under orders to a permanent change of station. For more details see [Moving Expenses for Members of the Armed Forces](#).

Taxpayers always have the option of calculating the actual costs of using their vehicle rather than using the standard mileage rates.

Taxpayers can use the standard mileage rate but must opt to use it in the first year the car is available for business use. Then, in later years, they can choose either the standard mileage rate or actual expenses. Leased vehicles must use the standard mileage rate method for the entire lease period (including renewals) if the standard mileage rate is chosen.

Notice 22-03 [PDF](#), contains the optional 2022 standard mileage rates, as well as the maximum automobile cost used to calculate the allowance under a fixed and variable rate (FAVR) plan. In addition, the notice provides the maximum fair market value of employer-provided automobiles first made available to employees for personal use in calendar year 2022 for which employers may use the fleet-average valuation rule in or the vehicle cents-per-mile valuation rule.

Dear Ms. Ahart:

The Randolph County Commission is supporting the Human Resource Development Foundation's (HRDF) proposal for the Rural Communities Opioid Response Program (RCORP)-Implementation grant. This proposal will provide a one-stop service center for individuals experiencing substance abuse and/or homelessness in Randolph County, WV. Barriers that will be addressed in one location include, but are not limited to, financial awareness, housing needs, transportation issues, work-readiness skills and employment assistance, and substance abuse treatment.

Substance abuse and opioid addiction is at a high nationally and specifically in West Virginia. To address this concern, West Virginia has taken a strong approach to reduce substance abuse by implementing prevention, reduction, and treatment strategies among its population.

HRDF will have the committed support of the Randolph County Commission for the RCORP-Implementation program. This support will strengthen partnerships to aid individuals experiencing barriers in substance abuse treatment, counseling, housing, transportation, and employment.

We look forward to continuing our partnership and hope this grant is given full support and funding.
